The Dance in the School last year was not good. It may perhaps be continued for one more year, and if the attendance is not better closed at the end of it. The Supdt proposes its continuance for three years but the work done last year does not justify continuance for so long a period.

Second Member

May be continued for two years

OFFICE OF THE SUPERINTENDENT,
GOVERNMENT PRINTING,

Bangalore, dated.....23rd July....192 6.

Ps 15-26-1

FROM

B. PUTTAIYA, ESQ., B.A.,
Superintendent, Government Printing,
Bangalore.

To

P. G. D'Souza, Esq., B.A., B.L.,
Chief Secretary to the Government of Mysore,
BANGALORE.

SIR,

With reference to G. O. No: G. 1203-4/P.&.S. 73-24-5, dated the 17th August 1925, sanctioning the re-opening of the Printing School and the entertainment of a Foreman on Rs 35/- per mensem as a temporary measure for one year, I have the honour to state that the school was started on 1st September 1925 with 20 of the Press employees and the strength was later on increased to 23, but those employees whose general education was poor gradually dropped off and the strength of the school came down to 9 at the close of the official year. As, however, in connection with the re-organisation of the establishment sanctioned by Government, I have announced to the employees that those who pass the Technica examinations and do good and efficient work will be shown preferer in the matter of promotions and have advised them to take advantag of the printing classes, a large number of the employees possessir the requisite general educational qualifications have joined the school and from the 1st July 1926 the strength has increased to 23 and I am confident that all those who have now joined will receive full benefit from the school.

The Theory classes were held from 8-30 to 10 A.M. twice a week on Mondays and Thursdays and practical instructions was received by the employees in the course of the work on which they were engaged in the various branches of the Press.

Four employees of the Press appeared for the Madras Government Technical Examinations held in November 1925. Two of them passed, one in Proof-reading, Lower, and Machine work, lowe and the other in Proof Reading, lower. Now that examinations in printing have been instituted by the Mysore Government, the employe of the Press will have greater facilities to pass the Technical examinations and qualify themselves for the higher and more responsible appointments in the departments of the Press chosen by them and the Printing School will be an indispensable element in th training of the employees both in the theoretical and the practical side of the printing art. As the Mysore Examinations comes off in April, it is intended to send up a batch to Madras Examination in November next.

The school had been closed for over 4 years and in the first year of its re-opening, there have not only been a few passess in the Technical examinations but the number taking advantage of the instruction is decidedly ~~giving~~ gaining strength.

therefore beg that Government may be pleased to sanction the continuance of the school and the appointment of the Foreman on Rs 35/- for a period of ~~three~~ three years, the cost being met from th Piecework allotment as at present. I request early orders of Government as the period for which the Printing School and the establishment has been sanctioned as a temporary measure will expir on the 16th proximo.

I have the honour to be,
Sir,
Your most obedient servant,

R. Sutton

Superintenden
